# DOCUMENT YOUR JOURNEY.

If you have customers who are serious about skin care, they're going to LOVE *Mary Kay Clinical Solutions™* – and so are you! As a trailblazer of these game-changing products, you have the unique opportunity to experience the results first and share them firsthand with your customers when *Mary Kay Clinical Solutions™* launches.

## BEFORE-AND-AFTER PICTURES

We are asking you to document your *8 Weeks to Amazing* journey by taking a picture before you start and then every week following. Not only will this help you see your results, but the before-and-after pictures of your journey will be great ways for your customers to see what *Mary Kay Clinical Solutions™* can do.

### BEFORE-AND-AFTER PICTURE TIPS:

- Photograph your full face in the same way every week, ensuring good lighting.
- Have a relaxed facial expression.
- Create a before-and-after collage with the first picture and the one taken after week eight in a side-by-side image.

## RETINIZATION JOURNAL

Consider the following questions when jotting down your experience: How do you feel? How does your skin feel? What changes are you noticing with your skin? What tips would you give others at this time point?
